

## INTEGRA

파워&에너지 계측용 내장 PC 인터페이스 검출기 출력 옵션으로만 구매 가능.

### 주요 특징

The INTEGRA is a meterless line of all-in-one detectors that combine a detector and a meter in one convenient product.

The small but powerful meter of the INTEGRA series presents a direct USB or RS-232 connection so you can plug it into your PC or acquisition system.

Simply use the PC-Gentec-EO software supplied with your product and be ready to make power or energy measurements within seconds!

Each detector of the INTEGRA series offers the same incredible performance as the usual detector and meter combination, from pW to kW and from fJ to J. And the good news is that all our most popular products are available with the INTEGRA option.

### ALL-IN-ONE DETECTOR + METER

Plug your detectors directly into your PC with the INTEGRA embedded monitor.
