INTEGRA
Embedded PC interface for power & energy measurement. Can only be purchased as a detector output option.

KEY FEATURES
The INTEGRA is a meterless line of all-in-one detectors that combine a detector and a meter in one convenient product.

The small but powerful meter of the INTEGRA series presents a direct USB or RS-232 connection so you can plug it into your PC or acquisition system.

Simply use the PC-Gentec-EO software supplied with your product and be ready to make power or energy measurements within seconds!

Each detector of the INTEGRA series offers the same incredible performance as the usual detector and meter combination, from pW to kW and from fJ to J. And the good news is that all our most popular products are available with the INTEGRA option.

ALL-IN-ONE DETECTOR + METER
Plug your detectors directly into your PC with the INTEGRA embedded monitor.

INCREDIBLE PERFORMANCE
INTEGRA detectors offer the same performance as the usual detector + monitor combination.

NEW - USB OR RS-232
INTEGRA detectors are offered with a choice of USB (standard) or RS-232 connector (in option).

NEW - EXTERNAL TRIGGER
A 0-2V external trigger is available in option on every compatible INTEGRA energy detector.

COMPACT SIZE
Perfect for the lab, OEM applications and field servicing. No need to carry a meter!

LOWER RECALIBRATION COSTS
One product = one calibration. Reduce your recalibration costs by half!

UNIVERSAL SOFTWARE
Control your INTEGRA detector with the same powerful software as the MAESTRO.
